POST CARD

SCARBOROUGH

Most resorts are famous for one particular thing. Scarborough's appeal, however, is that it truly has Everything for Everybody.

For the children there's acres of clean wide sands, rock pools, donkeys and swings, children's shows, the half size model of the *Hispaniola* and the mile-long miniature railway.

For the lovers of quietude there are the unsurpassed Italian and Rose Gardens, quiet walks, a countryside that is a National Park and good music on the Spa.

Others may prefer swinging night life—discotheques, night clubs and slickly presented shows. Or championship golf courses, cricket, tennis and yachting. Down by the old fascinating harbour there are even the wheel stalls and amusement arcades beloved by the trippers.

Above all, Scarborough is on the drier side of England, protected from the prevailing wind and with a mean average daily temperature only a few degrees below that of the warmest place in the British Isles.
